We're Part of Seraphim's 14th Space Accelerator

Seraphim Space is a leader in SpaceTech investment and we're excited to be part of the latest cohort of their space-focused accelerator for early-stage companies. The 13-week program kicked off last month and will wrap up with an investor showcase in December.

MWC Vegas was a Success!

Earlier this month we showcased our innovative PolyEdge Multifunction Sensor in a successful joint demo with Airspan, highlighting Integrated Sensing and Communications (ISAC) capabilities for real-time 5G networks.

The demo was a massive hit, sparking interest from a number of people and companies.

Basics of PolyEdge Video

We're always working hard to explain our solutions to the world - and since PolyEdge is so unique we thought it would make sense

to put together a video highlighting exactly what makes it so special. Check out the video below!

New Blog Post: Pedestrian & Traffic Detection using PolyEdge

We're taking it to the streets! We brought PolyEdge to an intersection to show how we excel at pedestrian and traffic detection. Read the whole story in the blog post.

Smart Futures Lab Pitch & Graduation Day

We've had an amazing time this year as part of the Smart Futures Lab hosted by University of Colorado Denver and Colorado Smart Cities Alliance. But all good things must come to an attend. And earlier this month our CEO Amitav Mukherjee attended the SFL Graduation & Pitch Event to share how our time in the Lab has helped us refine our product offering and enter new verticals including Smart Cities.

We've Joined the AI-RAN Alliance

We're pleased to announce that we've joined the AI-RAN Alliance as a member! Founded by industry leaders NVIDIA, T-Mobile, and others, the Alliance enables the evolution and advancement of AI into radio access networks. We're working closely with multiple founding members on a new initiative, further details will be coming soon.

Our Newest Hire: Scott Speer

At Tiami we've been growing like crazy - and we're excited to share our newest hire with you! Scott Speer has joined us as our new Wireless R&D Manager – he is focused on the Government side of our business. He's

spent his career working in-depth with 5G, Satellite, and other telecommunications solutions. Previously he's worked for Northrop Grumman, Verizon, Sprint, and OpenSky Aerospace. He has a B.S. in Telecommunications Network Management from the New York Institute of Technology.
