

Tiami Networks - Quarterly Update

A quick update on what we've been building and deploying this quarter at Tiami Networks. This quarter focused on moving sensing from concept to real-world deployment.

5G Network Sensing, Proven Live

PolyRAN detected and tracked objects inside a live operator network with no impact to connectivity and no infrastructure changes

[Read more](#)

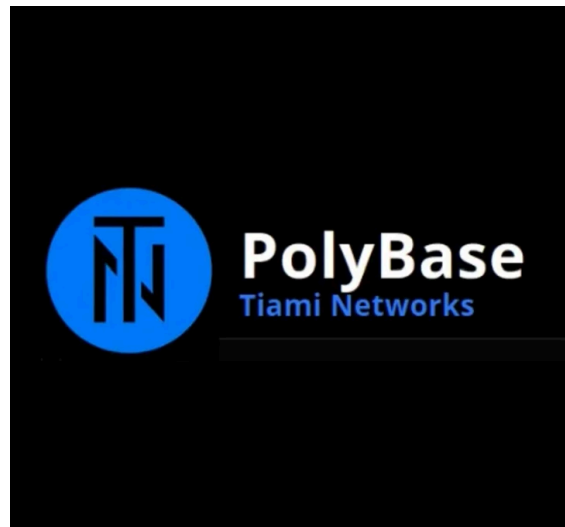

Sensing, Anywhere Connectivity Exists

PolyBase – Deployable 5G sensing platform enabling rapid, infrastructure-based awareness in austere and expeditionary environments

PolyEdge Mobile – Vehicle-mounted sensing capability delivering real-time awareness on the move across dynamic operational environments

PolyEdge NTN – Sensing capability leveraging non-terrestrial 5G connectivity to extend awareness beyond traditional terrestrial network coverage

[Read more](#)

Global Validation at MWC Barcelona

Showcased real-world PolyEdge systems and deepened engagement with global operators and partners

[Read more](#)

Operational Deployment - counter-UAS

PolyEdge supporting real-world drone detection as part of SEMPRES-led deployment with Air Force Global Strike Command

[Read more](#)

Showcased drone detection on T-Mobile's 5G network

Live demo highlighting how existing infrastructure can act as a sensing layer

[Check it out!](#)

Operational Validation – Counter-UAS (Canada IDEaS Sandbox)

Demonstrated PolyEdge at the Canadian Department of National Defence IDEaS Counter-UAS Sandbox

[Learn more](#)

Allied Operational Validation – NATO DiBaX Exercise

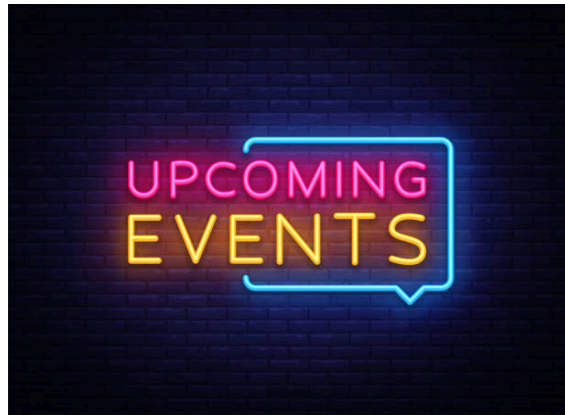

Participated in NATO DiBaX exercise in Latvia alongside allied and partner agencies

Upcoming Events

Come join us at one of the upcoming events we'll be at! If you're interested in learning more or setting up a time to connect just reply to this email and we'll take care of you.

Show	Dates	Location
XPONENTIAL	May 11-14	Detroit, MI
SOF Week	May 19-21	Tampa, FL
Eurosatory	June 15-19	Paris, France
